

**November, 2012**

A new Safety Presentation Program provided by the John Petropoulos Memorial Fund offers free workplace and driving safety presentations that deliver a powerful message to groups at their locations or conferences. It utilizes a captivating speaker and, where available, a local first responder, as well as the "Put Yourself in Our Boots" DVD. The format reinforces the safety message that making workplaces safe for emergency responders makes it safer for everyone on the job, employees, visitors, etc.

Should you be interested in such a presentation for your organization, see this link for further details:
