

Workplace Safety from a Different Perspective

Safety presentations by the John Petropoulos Memorial Fund (JPMF) offer a different perspective on workplace and traffic safety – that of emergency responders, including police, firefighters and paramedics. Our safety speakers use the story of Const. John Petropoulos – who died in the line of duty while investigating a break-and-enter call – to highlight the importance of workplace safety to first responders and anyone who may attend your work site. Presentations at your choice of location include a 10-minute safety video and a Q&A session with first responders.

When you make your workplace safe for emergency responders, you make it safe for everyone!

Contact JPMF Safety Presentation Coordinator Sarah Hourihan at sarah@jpmf.ca for more information.
